### Bitcasa Crack+ Download [Win/Mac]

Bitcasa Torrent Download is a second-gen online storage space which leverages the characteristics of the Cloud services. Unlike other free cloud storage providers, it doesn't simply consist of a storage space online. Rather, the application is a means of connecting it to your own storage space, and you decide which data to keep in the online storage space, locally and safely. It's like having your own private backup service that's available from your Desktop PC.
