Recall is a free, fun and innovative tool designed specifically to help you keep track of your assignments, meetings, doctor's appointments, school, etc. Whether you're using it at work or in your study, Recall will help you log your daily activities and projects, and see when you've missed or forgotten important appointments, deadlines or meetings. Recall provides you with: - A reminder pop-up each day before you leave - A reminder pop-up each day before you leave - A reminder pop-up each week before you leave - A reminder pop-up each week before you leave - A weekly overview of your schedule - Reminders based on your calendar - A reminder window when you get close to a deadline - A reminder window when you get close to a deadline - A reminder window when you get close to a meeting - A reminder window when you get close to a meeting *NOTE: All notifications will be sent to the email address associated with your Google account • Use it at your convenience, wherever you are! • Use your smartphone or tablet to get reminders! • The reminders are sent by email and allow you to use your favorite calendar • Send reminder messages in case of sick days, vacations, or personal travel • Use the mobile version of Recall to have mobile access to your appointments • Forgetful? With a reminder window you'll remember to mail your documents • Can you assign one of your "do not disturb" days to specific reminders? - When you make a reminder, the reminder is automatically assigned to one of your "do not disturb" days - Have a wake-up reminder, an alarm clock, a meeting reminder, or anything else? • Make it look how you want it to appear: - Choose the color scheme for your reminders - Choose the size of your reminder window • Set reminder reminders for yourself, for others, or for other people's agendas • Complete your agenda anywhere, any time • Imagine yourself as a "snack" day • You can share your agenda with your family or friends • Customize your reminder window: - Choose the color of your reminder window - Choose the color of the reminder pop-ups - Choose the color of the text of

M-Minder Free Download For PC

Mobile reminder for your important dates, reminders and notifications. Easy to use, just add and events, reminders and notifications! 3 modes: 1- Daily reminder (alarms); 2- Daily reminders and notifications; 3- Multiple events (reminders); Custom sounds and interval for each event, with others options: Daily event, monthly recurring event, yearly recurring event, and work days. M-Minder is already able to remind you about important dates like birthdays, anniversaries, conferences, meetings, appointments and tasks, either at one time or recurring, just add the events or reminders that you want. Notes: Data loading takes 2 or 3 seconds. Data saving takes 2 or 3 seconds. New (1.0.3) and not running (1.0.2): - New event. When the system press the double click, a new event is created, and "Add new event..." is pressed and the text box is focused. (Custom sounds can be defined.) - Not running event can not be deleted. New (1.0.3) and running (1.0.2): - When pressing the double click on a date, a new event is created, and the event is running. (Custom sounds can be defined.) - Not running event can be deleted by the "Del" button, or while running by pressing "Delete". General: - When the system press the double click on a date, a new event is created, and the event is running. (Custom sounds can be defined.) - When pressing the "Del" button, the event that is not running, is deleted. Issues with the new version of the application: - Changes in the right column (date with the start and end) of the reminder (when reminders and alarms are activated). - Context menu is not working. - When you press the "Del" button, the reminder is not deleted, and the notes are also not deleted. - Context menu in the Alarms (shortcuts for systems) and reminders. - Context menu for adding event and adding notification. - Date can be added from the bottom of the date list. (Marked as bug in 0.8.0) - Reminders and Alarms without time, are stopped by itself, instead of continued, as usual. - When you press the day name of

M-Minder is a time management and reminder app designed to work with your MeeGo device. It allows you to create recurring events and reminders and set automatic alarms and notifications for them. You can define reminder rules that start at different dates, as well as check events at times. Moreover, M-Minder allows you to schedule daily, weekly, monthly, yearly events. It can be set to remind you at certain times with custom reminders. It is designed to help you plan and manage your daily life. You can schedule a reminder rule to remind you about every day, weekly, every two weeks, monthly, yearly at a certain time and date. You can also check your reminders and events automatically by alarm. Features: Integration with KDE. Scheduling of daily, weekly, monthly, yearly events. Scheduling alarms, reminders. Reminder rules: Rename: Rename a rule. Move: Move an event into a rule. Invert: Invert the rules order. Revert: Restore the rules to the previous state. Delete: Delete an event. Configure alarm: Synchronize: Use my KDE calendar. Don't synchronize: Use the system calendar. Day of week: Day of week (Monday, Tuesday,...) Day of year: Day of year (January 1, January 2,...) Day of month: Day of month (1, 2, 3,...) Day of week year: Day of week, year (10th, 20th, 30th,...) Day of week month: Day of week, month (4th, 10th, 14th,...) The application range from personal organisers, event managers, reminders, time management, but they all operate with the same basic concept. Personal organizers take the time to remember the details of people and events, while personal organisers tend to be more idle. An event manager is the main interface for managing your events and deadlines, and a reminder is used to give you alerts for events that you have not managed to deal with yet. Time management systems tend to focus on the time aspect of your life, and you can use this interface to keep track of your tasks, their progress, and ensure that your work time is used efficiently. Your task list is a collection of tasks, without any design or colour scheme. You can add new tasks from anywhere, even on

What's New in the M-Minder?
