probabilities. 1. To understand more about differences in policies regarding family involvement in the American health care system, the trajectories of five families of different sizes and defined income levels were observed for 18 months. 2. The researchers, having collected data from the 1970 s and the 1970 s and the 1970 s and the 1980 s, examined the consistency of paths taken through time and between states and regions. 3. The results indicated that in the transition from the 1970 s to the 1970 s, there was a substantial increase in the number of families that participated in health care, which remained fairly constant in the 1970 s
