. Maybe I have installed a pirated program (it was legally bought). So, do I have to install something to get the problem solved?. . I used to be able to play all those games, but I'm not sure if the reason of the problem is my internet connection. . A: As I can see you don't have a Windows live account so the games don't work. 1) Create a live account 2) You will get a account id and password, after creating the account and after receiving the email notification of registration click the link in the mail and enter your account id and password. It will take some time to verify the account but you can try all that. If it doesn't work please remove the connection. The Basic Communications Fund-A Trustee's View Funding for a communications network is coming up next month. We are debating whether to fund the first phase or to have a process to identify the next phase. Here are a few thoughts and requests for comments. 1.Funding for the fund needs to remain open-ended as technology changes. Communication networks are evolving all the time. The Fund has been open-ended since its inception in 1993. The SRA-HF originally planned to finance the build up to the first phase. In 1996 the Fund was opened up to include the first phase as well as the phase required for successful operation. At that time the SRA-HF set an initial target of $30 million for the first phase and $10 million for the second phase (the "Successful Operation Facility"). In 1999 this was adjusted to a total of $40 million (which presumably includes operations) and a then target of $10 million per year for the SRA-HF (The figure was changed in 2004 to reflect a reduction in projected funding). The $40 million for the first phase is limited in the next SRA-HF reports to a maximum of $25 million by SRA-HF regulations and is not linked to inflation or other factors. The SRA-HF has very little to do with the decision on whether to fund the first phase. The SRA-HF is not at all involved in the decision. A committee made up of representatives from the community (including trustees from the winnipegsci 0cc13bf012
