The Nikkei has reported that Mr Abe is also thinking of cancelling the Trans-Pacific Partnership trade pact. "We have a long history of interacting with North Korea and we will continue to do so. I will continue to be in close touch with both countries and maintain close relations with both, even if there is tension," he said on Saturday. When South Korea's Ms Park went to the G20 summit in Argentina on Friday, Japanese officials told the Nikkei that Mr Abe would not host a bilateral meeting with her. Nutcracker esophagus (NE) has been referred to as the entity of "abnormal gastroesophageal reflux, dysphagia and airway complications." Though, the impact of NE on quality of life (QOL) is poorly understood. We used the Paediatric Quality of Life Inventory (PedsQL) 4.0 Generic Core Scales in children with NE to assess their QOL. One hundred fifteen children with NE and 68 normal children were enrolled in this study. At the first visit, standardized endoscopy was done to measure inter-nissal length and nuchal translucency thickness. Paediatric Quality of Life Inventory (PedsQL) 4.0 Generic Core Scales were applied to evaluate their QOL. Mean age of the patients with NE (n = 115) and controls (n = 68) was 9.6 ± 3.9 years and 9.8 ± 4.6 years, respectively. Mean inter-nissal length of patients with NE was 3.1 ± 0.9 cm and it was significantly lower than that of the controls (4.2 ± 0.5 cm, $p = 0.001$). Mean nuchal
