## **Akai Mpc Studio Serial Number**

the akai mpc studio black/touch are the first akai mpc's to include the touch screen. the screen is not completely touch sensitive, but it is a great advantage for artists who find the touch screen keyboard uncomfortable. you can use the touch screen to navigate the mpc using the same keyboard shortcuts that work with a regular keyboard, and the touch screen lets you navigate with one hand. you can also use the touch screen to trigger sequences that would normally be performed with the buttons. the akai mpc studio black and touch also

---

feature a touch panel for navigating the mpc with the touch screen. as with the touch screen, the touch panel can be used to trigger sequences that would normally be performed using the buttons. the touch panel also provides a more tactile way to navigate the mpc, and makes it easier to use the mpc while standing or sitting. the akai mpc studio black/touch are the first akai mpc's to include the touch panel. the touch panel can be used to trigger sequences that would normally be performed using the buttons. the touch panel also provides a more tactile way to navigate the mpc, and makes it easier to use the mpc while

---

standing or sitting. actions like identifying your serial number, obtaining a new serial number if needed, and unlocking the software are disabled by default to limit the amount of time a serial number can be used. after the serial number is used up, it will not work anymore. to activate these features, you must download and install the akai mpc studio software from akai pro mpc studio downloads 5ec8ef588b
