## Welcome 2007 Hindi Movie 720p Torrent ((TOP))

welcome to me is an absolutely masterful showcase of the stuff that makes alicia so good at comedy: her unyielding knack for so painfully and hilariously revealing her own suffering on screen. also, alicia's performance is one of those that can tug at your heartstrings as it's so endearing that you might want to reach up and hug her, which might seem a bit weird, but we assure you that you won't be alone in this. this beautifully directed movie is the latest out of the three bizarrely funny movies that will shake hollywood this year from the east. in welcome to me, a young, single working woman named alicia (molly shannon) and her two best friends plan a low-key night out while alicia is still reeling from her husband's impromptu proposal of marriage. unfortunately, alicia has a history of rages in which she does all kinds of crazy things (throwing expensive china plates and smashing the pool table), and her rage-induced hormonal morass leads to her regrettable quip of running through the house and being a bitch to all of her friends. alicia and the gang take their drinks to a nearby alley where alicia suggests an action against the date that will alter the course of her life. and, suddenly, it isn't. welcome to me is not like so many other comedies. in this unique movie, it takes time to set up the premise. it's more of a slow burn from the start, but those in the know will know right away what is going on, which should not be taken as a negative thing. that just means that the movie gives you time to think about the structure, the characters and the film as a whole.
